7	Shoshone 65-77A	WY20521-02119	1/27/2022

P&A plan notes by EPA. Overall objective: to leave well with no communication pathways into USDWs

Exposed geology (567'-0'). Add perfs at ~525' thru liner and prod csg, and sqz cement behind 5.5" csg from ~525' to surf

Exposed geology (650'-457') is not addressed in P&A plan. May not be possible.

Exposed geology (715'-192') is not addressed in P&A plan. May not be possible.

No surface csg in well. Exposed geology (432'-0'). Add perfs at ~400' thru liner and prod csg and sqz cement behind 5.5"

No surface csg in well. Exposed geology (362'-0') is addressed in P&A plan

Exposed geology (315'-70') is addressed in P&A plan

Exposed geology (250'-203') is addressed in P&A plan
